"The Wards Island project will help New York City transition to a more sustainable future and set a new bar worldwide for clean energy installations at wastewater treatment ...

The energy storage system enhances the stability and reliability of power supply, reducing impacts on wastewater treatment operations caused by outages or fluctuations, ...

When complete, this solar array will be the largest clean energy installation at a WRRF in the world, at no upfront capital cost to the City of New York. The project will see the ...

Our containerized sewage treatment systems integrate Moving Bed Biofilm Reactor (MBBR) technology for superior performance. Request a quote today.

Our modular units offer complete, mobile solutions for efficient urban wastewater treatment. Based on the activated sludge process, these containers guarantee wastewater purification in ...

Our intelligent containerised waste water treatment plants offer a fast and effective above ground portable waste water treatment system solution for any sites, without the need for any existing ...

The ClearFox(R) Containerized System is a packaged wastewater treatment plant, custom designed and pre-installed within ISO shipping containers. ...

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing ...

Our intelligent containerised waste water treatment plants offer a fast and effective above ground portable
