Mobile Command Centers (60-100kW capacity): These units serve as complete emergency operation hubs. They include expandable solar arrays that deploy from shipping ...

Solar power containers have emerged as an effective and mobile energy solution that brings electricity to areas where the grid is damaged or nonexistent. Their modular design, ...

Ecos PowerCube (R) is the world's largest, mobile, solar-powered generator. It runs on high power photovoltaic panels that extend from its container combined with an easy to set up wind ...

The SunKit 6010 is a high-capacity off-grid power solution designed for emergency operations, medical facilities, military command centers, and mobile offices. This 10kWh LiFePO4 battery ...

These solar-integrated backup power units combine photovoltaic generation, lithium battery storage, and smart energy control ...

We created the SolarBox off-grid solar container to handle diverse situations, especially in remote areas and sudden emergencies. In the past, diesel generators were often ...

These solar-integrated backup power units combine photovoltaic generation, lithium battery storage, and smart energy control into a compact, transportable container--delivering ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

Our Hybrid Solar Container offers unmatched scalability and precision for operational needs, making it an
