Executed by developer Key Capture Energy (KCE), the 20MW lithium-ion battery system was supplied by NEC and went into action a few months ago in Stillwater, New York.

New York's governor Kathy Hochul has welcomed the start of commercial operations at a 20MW battery energy storage system ...

The 20 MW energy storage project enables renewable energy growth and relieves transmission constraints. New York's first state ...

New York's governor Kathy Hochul has welcomed the start of commercial operations at a 20MW battery energy storage system (BESS), the US state's first project of its ...

Energy storage solutions firm Key Capture Energy is making progress on a 20-MW, 40-megawatt hour (MWh) KCE NY 6 energy storage project south of Buffalo, New York. ...

New York Gov. Kathy Hochul on Aug. 25 announced that New York's first state-owned utility-scale battery energy storage project is now operating in Franklin County, N.Y. ...

The 20 MW utility-scale battery energy storage facility will help accelerate the target of 6 GW of energy storage by 2030.

The 20 MW energy storage project enables renewable energy growth and relieves transmission constraints. New York's first state-owned utility-scale battery energy storage ...

Beacon's 20-MW system has been designed to provide frequency regulation services by absorbing electricity from the grid when there is too much, and storing it as kinetic energy in a ...

Set to be operational in the first quarter of 2026, the project highlights how battery storage can maximise wind energy efficiency while ensuring grid stability.

On May 16, Chinese company Gotion held the 2025 Global Technology Conference, where it introduced the Grid20MWh BESS 20MWh energy storage system. It is ...

Prior to the provincial government's pause on renewables, the energy-storage industry had been working with AESO on modernizing Alberta's power purchasing and distribution rules to better ...
