Cemex and Synhelion announced today a significant milestone in their joint effort to develop fully solar-driven cement production: the scaling of their technology to industrially ...

Cemex and Synhelion are on their way toward achieving a fully solar-powered cement production with the latest scaling of their technology to industrially-viable levels.

Now, having successfully demonstrated the viability of the technology under continuous and plant-like conditions, Cemex and Synhelion are poised to move forward with ...

CEMEX and Synhelion have been collaborating to introduce CST in the cement production process, achieving the first successful laboratory-scale demonstrative pilot in 2022 by ...

Cemex and Synhelion will now take further steps toward building a solar-driven industrial-scale pilot cement plant. "I am convinced ...

Synhelion and Cemex announced today a significant milestone in their joint effort to develop fully solar-driven cement production: the scaling of their technology to industrially ...

Now, having successfully demonstrated the viability of the technology under continuous and plant-like conditions, Cemex and ...

CEMEX and Synhelion announced today the successful production of the world's first solar clinker, the key component of cement, a significant step towards developing fully ...

Cemex and Synhelion will now take further steps toward building a solar-driven industrial-scale pilot cement plant. "I am convinced we are getting closer to the technologies ...

CEMEX and Synhelion announced today the successful production of the world's first solar clinker, the key component of cement, ...

Synhelion and Cemex announced today a significant milestone in their joint effort to develop fully solar-driven cement production: the ...

The Synhelion and CEMEX R& D teams set up a pilot batch production unit to produce clinker from concentrated solar radiation by connecting the clinker production process ...
