With Base, you pay just a one-time installation cost that pays the team of electricians to install the battery on your home. Base offers fair, fixed rates and reliable backup power.

While I thought it was too good to be true, Base's solution is exactly what I've been looking for - backup power for an affordable upfront cost. Also ...

Customers who sign up with Base Power agree to allow the company to install a whole-home backup battery outside their dwelling. Customers pay a one-time fee of \$3,000 for the ...

While I thought it was too good to be true, Base's solution is exactly what I've been looking for - backup power for an affordable upfront cost. Also excited to support a Texas-based team ...

With Base Power, customers do not own or maintain the equipment. For an upfront fee of \$495, Base installs a 25-kilowatt-hour battery. After the first year, customers pay ...

Base Power offers full home backup for \$3,000, or the cost to install, which is much less than a generator that can cost a homeowner around \$20,000.

How do I know if I'm using battery power or grid power? How should I interpret the Base App "status" bar with "power source", "battery charge", and "estimated backup time"?

During a power outage, the system dedicates its stored energy to keeping the customer's home powered. The company charges a setup fee of \$595 for a single system, accompanied by a ...

Below-market electricity rates and home battery backup from Texas' modern energy provider. Reliable power
