Hiltra supplies a complete range of fireproof battery cabinets, battery containers and battery boxes for the safe storage and controlled charging of lithium-ion batteries.

The BATTERY line safety storage cabinets are specially constructed for the high demands on a safe storing and charging of lithium-ion batteries which could catch fire in the event of ...

Liquid-cooled energy storage lithium iron phosphate battery station cabinet Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, ...

The H2 Cabinets of the N-series are designed for indoor applications. The turnkey solution can be equipped with up to four EFOY Hydrogen fuel cells for each cabinet.

o High temperature resistant up to 2552 & #186;F / 2552 & #186;C o Lightweight, highly advanced fire insulation materials incorporated in walls, bottom and lid o Special fire resistant vents for ...

To address these concerns, the battery cabinet has become a critical safety solution. A lithium-ion battery charging cabinet provides both fire-resistant storage and ...

asecos is the leading German manufacturer of highly-insulated safety storage cabinets for flammables.

To be able to recognise critical events, we offer a temperature sensor that triggers at temperatures inside the cabinet of over 60°C and switches a potential-free contact. A smoke detector is also ...

The most intensively tested battery fire containment solution on the market, engineered to fight all thermal runaway problems: o High temperature resistant up to 2552 oF / 2552 oC. o ...
