What is the largest wind farm in Switzerland?

In spite of this, since 1996, together with its three partners, BKW has been operating the largest wind farm in Switzerland - JUVENT in the Bernese Jura. Some 20% of the electricity produced by BKW comes from wind energy.

How many wind farms does BKW operate?

Together with our network of companies and partners, we currently operate more than 20 wind farms in Switzerland, Germany, France, Italy, Norway and Sweden. Today, wind power makes up one-fifth of BKW's electricity production. As a renewable energy source, wind power will be a key source of energy in the future.

Who are the experts at Janneby wind farm?

From planning and production through to project implementation, our experts are totally committed to your project. At the Janneby wind farm, project partners DenkerWulf and ENERCON have commissioned the first wind turbine. Since this week, the E-175 EP5 E2 has been feeding electricity into the grid.

Who is Vestas wind turbine manufacturer?

Wind turbine manufacturer, seller, installer and servicer Vestas is an industry name across the wind and renewables sectors. The Danish company has invested more than US\$1bn to establish several manufacturing facilities in Colorado to serve the North American onshore wind market.
