What are the best solar panels for homes?

In 2025, Canadian Solar ranked #1 on the list of best solar panels for homes, further solidifying its reputation in the industry. Illuminate USA is an American company, but it operates as a joint venture between Invenenergy, a U.S.-based energy company, and LONGi Solar, one of the largest solar manufacturers in China.

Where are illuminate solar panels made?

The company's main manufacturing facility is located in Pataskala, Ohio, where over 1,000 workers produce high-quality solar panels. With an annual capacity of 5 GW, Illuminate USA plays a crucial role in supplying American-made solar panels for both residential and commercial projects.

Who makes qcells solar panels?

Qcells is the second-largest manufacturer of solar panels in the U.S., the second most-popular brand on the EnergySage marketplace, and one of the most popular residential solar panel manufacturers, American-made or otherwise. While Qcells is based in South Korea, the company recently opened a solar panel manufacturing plant in Georgia.

Who makes solar panels in the United States?

Like Illuminate USA, T1 Energy is another example of a foreign-owned company manufacturing solar panels in the United States. The T1 Energy facility in Wilmer, Texas, was originally built under the name Trina Solar, a Chinese solar giant.
