What is a metalclad switchgear?

Metalclad Switchgear (5kV to 38kV): Our metalclad switchgear is suitable for both indoor and outdoor installations, providing reliable power distribution in harsh environments.

What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.

Does Elgin offer metal clad switchgear?

Additionally, we can integrate OEM metal-clad switchgear if required. For harsh, corrosive environments, we offer enclosures in aluminum or stainless steel. Elgin provides comprehensive support throughout the equipment's lifecycle with our in-house team of engineers and field service technicians.

Why do you need a switchgear manufacturer?

When it comes to protecting and powering your electrical distribution systems, having the right equipment is crucial. As a leading provider of switchgear manufacturing services, we offer best-in-class components and expert solutions designed to help you optimize your supply chain and minimize downtime.
