Why did China stop buying Nexperia?

Beijing responded by moving to block its products from leaving China, which, in turn, raised the alarm among global automakers as they faced shortages of the chipmaker's components. In an apparent reprieve last week, however, the Dutch government said it had suspended its state intervention at Nexperia following talks with Chinese authorities.

Why did China Block a chipmaker from leaving China?

The highly unusual move was reportedly made after the U.S. raised security concerns. Beijing responded by moving to block its products from leaving China, which, in turn, raised the alarm among global automakers as they faced shortages of the chipmaker's components.
