Global energy storage platform provider Powin LLC (Powin) will supply its advanced battery storage technology to support Michigan's new energy storage center. The 880MWh ...

DTE Energy plans to build a 220-MW battery energy storage system at its retired Trenton Channel coal power plant site, which was commissioned in 1924 and shuttered in ...

To enhance the utilization of renewable energy, accelerate the transition of the role of coal-fired power plants, and reduce carbon emissions, a Carnot battery system integrated ...

In Australia, ENGIE and its partners Eku Energy and Fluence in June of this year announced the commissioning of the Hazelwood Battery Energy Storage System, a utility ...

DTE Energy plans to build a 220-MW battery energy storage system at its retired Trenton Channel coal power plant site, which was ...

Utility giant Duke Energy is retiring its Allen Steam Station, a coal-fired power plant near Charlotte, North Carolina, to make way for its largest battery storage system, a major ...

Michigan's major electric utility said it plans to build one of the nation's largest standalone battery energy storage projects at the site of a retired coal-fired power plant....

What makes coal-fired power stations so suitable for battery storage? A coal-fired power plant offers almost everything needed for large-scale battery storage: infrastructure, ...

This paper summarizes key issues to consider and understand when evaluating whether a closing coal-fired plant can effectively be repowered with battery energy storage. It is part of a series ...

The proposed settlement agreement reached this week between LG& E/KU and Kentucky Attorney General Russell Coleman ...

The proposed settlement agreement reached this week between LG& E/KU and Kentucky Attorney General Russell Coleman keeps much of that request in place, but scraps ...

Michigan's major electric utility said it plans to build one of the nation's largest standalone battery energy storage projects at the site of a ...
