PDV's Packaged Power Station (PPS) is a highly integrated, containerized solution for fast, cost-effective supply. Ideal for mining, islands, and temporary projects.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

GE's mobile substation is a self-contained trailer or container equipped with the necessary high and medium voltage components of a full substation

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up ...

Explore our fully integrated modular power substations with the USP& E Powerbox. These containerized units offer modular power plant capabilities for large industrial projects.

They are fully experienced in any maintenance or repair task at your power plant. When in the field, our engineers communicate with and draw from experts in our company.

Siemens Energy prefabricated power solutions are customized, prefabricated high-voltage substations that help save time and money both in temporary and permanent applications.

E-Houses are prefabricated substations used as power distribution centers. Such containerized substations provide switchgear rooms as required. For special applications like Datacenters ...

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured,
