Discover our innovative solar photovoltaic containers, designed for sustainable energy solutions. Perfect for off-grid living, emergency power, or residential use, these portable systems harness ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

Highjoule delivers fully customizable energy solutions including foldable PV containers, integrated PV+storage systems, hybrid PV/storage/diesel cabinets, and mobile wind-solar units for ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

With our Mobile Photovoltaic Energy Storage Container System, we're proud to offer a practical, scalable solution that empowers individuals and businesses to embrace ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

Housed in a rugged container design, this powerful solar storage system delivers reliable off-grid power for commercial and industrial applications. Featuring advanced MPPT controller ...

We adapt our reference design to fit customers' specific energy storage/power requirements and
