How do you remove a battery from a base station?

To safely remove the battery from your SimpliSafe base station, you'll need a small Phillips head screwdriver. This tool will allow you to unscrew the securing screw that fastens the battery compartment cover in place.

How to remove a battery from a SimpliSafe base station?

To remove the battery from your SimpliSafe base station, first locate the battery compartment on the bottom of the base station.

Where is the battery compartment on a SimpliSafe base station?

The battery compartment on a SimpliSafe base station can usually be found on the bottom. This is where the magic happens when it comes to removing the battery.

What is a base battery system?

The Base battery system is built for performance and reliability. It combines a high-capacity lithium iron battery with intelligent software to optimize energy use. The Base battery system has three main components: the battery pack, inverter, and hub. The long white unit is the battery pack. We mount the battery pack on the ground.

Step 2: Unplug the Power Adapter To initiate a reboot, unplug the power adapter from the back of the base station. This will cut off the power supply and allow the system to reset.
