Sweden-headquartered BESS developer-operator Ingrid Capacity will build a 70MW/140MWh project in Finland, which it claimed will be the largest in the country.

Sungrow, the China-based global photovoltaic and energy storage system (ESS) company, has deployed a 60MWh battery energy storage system (BESS) facility in Finland.

Battery Energy Storage Systems (BESS) provide a modern and sustainable way to store and discharge electricity on demand. kW-set delivers fully ...

Sungrow's PowerTitan is a liquid-cooled BESS, designed for utility-scale applications. The battery system delivers high reliability and efficiency under challenging ...

With an installed capacity of 30 MW / 36 MWh, the project marks a major milestone and will play a vital role in strengthening Finland's evolving renewable energy infrastructure. Designed to ...

Sungrow's PowerTitan is a liquid-cooled BESS, designed for utility-scale applications. The battery system delivers high reliability and efficiency under challenging weather conditions, ensuring ...

Battery Energy Storage Systems (BESS) provide a modern and sustainable way to store and discharge electricity on demand. kW-set delivers fully integrated container-based BESS ...

The 70 MW/140 MWh BESS project will be located in Nivala, northern Finland. Set to go online in 2026, the facility will enhance grid stability, energy resilience and accelerate ...

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy ...

Bess project be built? The 50MW/50MWh BESS project achieved ready-to-build status last year after successful project development by ib vogt. Procurement and construction will be run by ...

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking ...
