What is gb31241-2014?

GB31241-2014 "Safety Requirements for Lithium Ion Batteries and Battery Packs for Portable Electronic Products" is mainly for mobile electronic products that are not more than 18kg and are scheduled to be carried by users.

What is the gb31241-2014 standard for mobile power distributors?

At the same time, Jingdong requires mobile power distributors to use the GB31241-2014 standard for quality inspection reports before they can be sold. Compared with GB/T 18287-2013 and other standards, GB31241-2014 pays more attention to the safety of lithium-ion batteries, except GB/.

What is GB 31241-2022?

GB 31241-2022 specifies safety technical requirements for lithium-ion cells and batteries used in portable electronic equipment. Examples include:

What is the difference between gb31241-2014 and GB/T 18287-2013?

Compared with GB/T 18287-2013 and other standards, GB31241-2014 pays more attention to the safety of lithium-ion batteries, except GB/. T18287 requires external short circuit, overcharge, over discharge, low pressure, temperature cycle, vibration and other test items.

Our Lithium Battery Container offers exceptional quality and style within the Energy Storage Container category. To find trustworthy energy storage container suppliers in China, conduct ...

Issued by: State Administration for Market Regulation; Standardization Administration of the People's Republic of China. This document specifies the safety requirements and test ...

GB 31241-2022 imposes new and updated requirements on manufacturers of lithium-ion cells and batteries. This article provides a ...

The battery testing and certification standard is a mandatory standard for the safety of lithium-ion batteries and

is scheduled to be implemented from 2015.8.1.

GB 31241-2022 imposes new and updated requirements on manufacturers of lithium-ion cells and batteries. This article provides a summary of the requirements in GB ...

ZRLK 18 focused on the testing and certification of battery products, always paying attention to the changes of laws and regulations in various countries, and providing one-stop testing and ...

Batteries, mobile power supplies, etc. must be listed on Taobao Tmall Jingdong, and the commissioned inspection reports of GB31241 and GB/T 35590 are also required.

This standard, officially titled "Safety Requirements for Lithium - Ion Cells and Batteries Used in Portable Electronic Equipment", was first implemented on August 1, 2015, and has been ...

This document specifies the safety requirements and test methods for lithium ion cells and batteries used in portable electronic equipments. This document is applicable to lithium ion ...

Batteries, mobile power supplies, etc. must be listed on Taobao Tmall Jingdong, and the commissioned inspection reports of GB31241 and ...

This document specifies the safety requirements and test methods for lithium-ion cells and batteries for portable electronic products. This document applies to lithium-ion batteries and ...

Understanding these principles is essential for designing and manufacturing safe lithium-ion batteries and battery packs.
