For Guyana's growing energy needs, advanced storage containers offer a sustainable path forward. From hybrid solar systems to microgrid stabilization, these solutions are rewriting the ...

Solar Direct was established in 2013 and has become a major supplier of quality residential and commercial solar and backup systems at the most affordable prices in Guyana.

Perfect for Guyana's energy needs, our lithium solutions provide reliable backup during blackouts and seamless integration with solar systems-urban or off-grid.

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

This project is Guyana's largest hybrid solar-plus-storage power facility and is expected to provide greater grid reliability for thousands of residents in the Essequibo region.

With its recent oil discoveries and ambitious climate goals, Guyana has become a hotbed for energy storage container innovations. The country's growing demand for stable ...

Spanning 13 acres, the advanced facility combines solar generation and energy storage to stabilize power supply on the Essequibo Coast. It captures excess solar energy ...

Guyana Power and Light has launched a tender for an EPC contractor to build three solar plants in Guyana with a combined 15 MWp capacity and 22 MWh of battery storage.

Guyana's Public Utility (GPL) has initiated a tender for three utility-scale solar PV and battery storage projects, totaling 15 MWp of solar capacity and 22 MWh of storage.
