This 72V DC solar water pump operates at an impressive 900W power capacity and can achieve a maximum flow rate of 92 GPM. With a generous lift of 62 feet, it efficiently circulates water, ...

With a powerful 750W brushless motor, this solar pump operates at a voltage of 72V, ensuring optimal energy conversion and minimizing power ...

The Sunshine 1200W brushless solar water pump is built for reliable performance in solar-powered water systems. Operating on 72 V DC and ...

With a powerful 750W brushless motor, this solar pump operates at a voltage of 72V, ensuring optimal energy conversion and minimizing power consumption. Designed for versatility and ...

With a maximum water flow of 3.8 m³/h and a water lift head of 123m, this pump is designed for small power and large head applications, perfect for household water supply, animal ...

This GPDC Solar Submersible Water Pump is a compact submersible water pump solar powered, with a max flow of 793 gallons per hour. Solar pumping systems work any where the ...

Experience efficiency with the Brushless Solar Submersible Pump with Controller Model# 3HR1200-180/2.3C. Enjoy its durable design and advanced features!

Featuring a built-in MPPT controller, our pumps offer power options from 300W to 2200W, covering 24V, 48V, 72V, 96V, 144V, and more to meet all your needs.

The Sunshine 1200W brushless solar water pump is built for reliable performance in solar-powered water systems. Operating on 72 V DC and powered by solar panels, this pump ...

High power solar 72v water pump

Solar Water Pump for Irrigation / Solar Powered Swimming Pool Pumps / Solar Dc Pump System / 72V, 216V, 288V US \$784.28 US \$784.28

Ideal for remote locations, this solar-powered pump offers a reliable solution for areas without grid access, ensuring a sustainable water supply for various applications.

72 volt solar water pump with special DC controller has maximum head ...
