This Project will design and install an array of 2MW solar PV panels, 2MW/0.5MWh energy storage, a control system, and will include augmentation of the grid connection.

Recent advancements in bifacial solar panels now capture 22% more energy than traditional models. When installed at 15-degree tilts across Honiara's rooftops, they're generating 4.8 ...

What are self-contained solar energy containers? From portable units to large-scale structures, these self-contained systems offer customizable solutions for generating and storing solar ...

environmentally friendly construction. Each shipping container home uses low-VOC paints, wood sourced from sustainable forests, LED lighting, and energy-efficient appliances.

As a trusted provider of industrial energy solutions, EK SOLAR has deployed over 150 storage systems across Pacific Island nations. Our local team understands Honiara's unique ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

That's exactly why Honiara Energy Storage Pack Factory has become the region's best-kept secret since launching in 2023. Think of us as the Swiss Army knife of energy ...

In Honiara's rapidly developing industrial landscape, energy reliability isn't just a convenience--it's a necessity. Factories, mining operations, and agro-processing plants face ...

The solar container includes lighting, access control, fireprotection, and air conditioning. 20FT can hold around 1000kwh battery, inverter combiner box or PCS, 40FT can hold ...
