What is a custom manufactured switchgear?

Our custom manufactured switchgear solutions are designed to meet companies' specific power distribution equipment needs, and we are known as the preferred choice among custom switchgear manufacturers. We offer a wide range of stainless-steel, metal-enclosed, and metal-clad switchgear, as well as switchboards ranging from 208V to 38kV.

What does a switchgear manufacturer do?

Manufacture, design, fabrication, and installation of low or medium voltage and arc-resistant switchgears. Features vary depending upon model, including arc mitigation, cloud-based monitoring, reinforced enclosures, cycloaliphatic epoxy insulation, copper-chrome contacts, and venting systems.

Who is a switchgear distributor?

Distributor of switchgear for government institutions, hospitals and health care facilities, manufacturing plants, universities, municipalities, retail stores and residences. Battery testing and charging, field service troubleshooting, diagnostics, repair and preventative maintenance services are also provided.

What is medium voltage switchgear?

Medium Voltage (MV) Switchgear is a fundamental component that helps safeguard electrical systems with voltage rankings between 1kV and 38kV. RESA Power is a proud distributor and manufacturer of a variety of switchgear styles including metal-clad, metal-enclosed, pad-mounted, and more.
