How much does a 40 ft shipping container cost?

Used 40ft shipping containers cost on average \$2,000 to \$4,500 for standard and \$2,500 to \$5,000 for a 40 ft high cube, while new 40ft containers cost \$3,500 to \$6,500 and \$4,000 to \$7,000, respectively. Use our public search tool to compare prices and find the perfect shipping container for your needs.

Are new shipping containers more expensive than used?

New containers are typically more expensive as they are in perfect condition and ready for long-term use. Used containers are less costly but have some wear and tear. Shipping container sizes and prices are directly linked to each other. The price also depends on how well the container has been maintained over time.

How much do shipping containers cost?

There are several options available: Cargo-worthy 20ft dry containers. Prices range from \$500 to \$3,000. Cargo-worthy 40ft dry containers. Expect to pay between \$1,000 and \$3,500. 40ft high cube (HC) cargo-worthy containers. Shell out between \$1,500 and \$4,000. The condition of the container greatly influences how much shipping containers cost.

How much does a 40 ft cube container cost?

The 40ft high cube container will set you back anywhere from \$2,000 to \$6,000. A new container, with its fresh-off-the-factory-floor feel, naturally costs more than its seasoned counterparts. Used or cargo-worthy containers, which have braved the elements and collected some dents along the way, have lower price tags.
