Huawei patents solid-state battery with 3,000 km range and 5-minute charge, promising breakthrough energy density and fast charging.

Chinese technology company Huawei has filed a patent in China for a sulfide-based all-solid-state battery that it says could enable an electric vehicle to travel up to 3,000 ...

Smartphone giant and EV investor Huawei has challenged CATL and BYD's supremacy by inventing a pioneering new battery that ...

Chinese tech giant Huawei has filed a patent for a next-generation solid-state electric vehicle (EV) battery that claims to offer an unprecedented driving range of over 3,000 ...

Chinese telecom giant Huawei has filed a patent for a sulfide-based solid-state battery that claims to deliver a driving range of up to 3,000 kilometers (about 1,860 miles) with ...

Huawei, famous for making phones and other consumer devices, has announced a patent for a new EV battery with far more range and faster charging than others.

Huawei promises that its battery technology could deliver around 1,864 miles of range and achieve a 10% to 80% charge in under ...

Huawei has filed a patent for a new type of solid-state electric vehicle (EV) battery that could significantly change the future of clean transportation. The technology promises a ...

Huawei, famous for making phones and other consumer devices, has announced a patent for a new EV battery
