We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

With pre-installed and pre-commissioned components, the container energy storage system reduces on-site installation and grid connection time by over 50%. Its efficient thermal ...

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over Ireland and further afield (we ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

Ireland's pushing to become Europe's solar container testbed through Project Harvest. The initiative's already attracted EUR14M in EU funding, with trial sites in Limerick and Waterford.
