Our aim is to develop a pipeline of projects to deliver large scale batteries while also developing a growing solar energy portfolio. Since 1998, starting with our 5MW wind farm in Crockahenny, ...

The Gorman battery system, with an installed capacity of 50 MW, is our world's first commercial-scale battery system and the first in Ireland. This project is part of our commitment to ...

With a target of 80% renewable electricity from intermittent sources on our grid by 2030, Ireland will require a significant amount of energy storage in the years to come.

Today's conference heard from a range of stakeholders across the renewable sector, discussing the potential role of energy storage in the Irish energy transition, and the ...

At Sun Arc Solar Systems, we are at the forefront of Ireland's solar energy revolution. Our solar panel installations are designed to maximise energy production, lower ...

New wholesale electricity market rules have been introduced in Ireland, designed to allow battery storage assets to participate directly. From 11 November, the Scheduling and ...

With the possibility of more sunshine and longer days, Ireland could easily break even more records, further solidifying its position in the renewable energy landscape. March also saw a ...

Wind and solar energy play a key role in Ireland's transition from fossil-fuel-based electricity generation. But these precious resources will need to be stored for times when the ...

With increasing adoption of solar and wind power, both homeowners and businesses are turning to solar
