-----  
How many solar installations are there in Ireland?

Over the past two years, Ireland has doubled its small-scale solar capacity and installations currently number more than 132,000 (560 MW).

How much electricity does a solar system produce in Ireland?

Rooftop and small-scale ground mounted solar systems in Ireland have set a new monthly record for electricity production, generating a total of 66 GWh of electricity in April. So far, in 2025 just over 137 GWh of electricity has come from distributed solar systems.

How much solar power does Ireland have in 2025?

So far, in 2025 just over 137 GWh of electricity has come from distributed solar systems. At a total of 66 GWh, Ireland's small-scale solar output during the month of April was enough to power the monthly average demand of around 188,000 Irish homes.

Can you see Ireland from space?

The island of Ireland makes for a great photo opportunity from Earth orbit: it is small enough to fit in a single field of view, and its distinctive outline is familiar and easily recognisable. We've taken a look through the ESA and NASA archives to dig out pictures of Ireland from space, as seen by both human and robotic explorers.

Skellig Michael, a small, uninhabited, rocky island eight miles from the small Kerry fishing town of Portmagee, received worldwide ...

WISPIT 2b was detected as part of a five-year observational research project during which the international team sought to establish whether wide orbit gas giant planets ...

The system is still partially reliant on fossil fuels, but each leap in solar capacity, wind expansions, and storage improvements edges Ireland closer to a net-zero grid.

Discover just how testing island life would have been for these residents, who eventually left for the mainland

...

The system is still partially reliant on fossil fuels, but each leap in solar capacity, wind expansions, and storage improvements edges ...

Discover just how testing island life would have been for these residents, who eventually left for the mainland in the 13th century. As well as a good dose of history, you'll be ...
