When will battery energy storage systems be installed in Latvia?

The most recent update regarding BESS installations is that in Tume and Rezekne, Latvia's transmission system operator "Augstsprieguma tikli" (AST) in June 2025 installed battery energy storage systems with a combined capacity of 80 MW and 160 MWh, which will undergo testing until October 2025.

Who is responsible for the energy transition in Latvia?

Local authorities are responsible for municipal energy supply and renewable energy projects, with Latvia's energy transition guided by the National Energy and Climate Plan and the Energy Strategy 2050.

What is Latvia's first storage battery system?

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

Latvian is the official language of Latvia, where it is spoken by approximately 1.75 million people. It plays a central role in the country's national identity, particularly following Latvia's ...

The HJ-ESS-DESL series of liquid cooled commercial energy storage systems are highly efficient energy storage solutions designed for industrial and commercial applications with capacities ...

Latvia's energy storage sector is rapidly evolving to meet EU sustainability goals. This article explores companies developing energy storage power stations in Latvia, market trends, and ...

Latvian is a Baltic language related to Lithuanian and Old Prussian with about 2 million speakers mainly in Latvia. It is a Statutory national language in Latvia and is spoken as a native ...

Discover the fascinating history and cultural significance of the Latvian language, a cornerstone of Latvia's national identity.

Latvian language, East Baltic language spoken primarily in Latvia, where it has been the official language since 1918. It belongs to the Baltic branch of the Indo-European family of languages.

Nature is what binds Latvian people to their land and culture, with its deep roots in ancient celebratory traditions. Travelers who come to Latvia in June are privileged to witness a truly ...

Energy storage systems and digital energy management software are becoming increasingly important in the Latvian energy market. These solutions enable more efficient ...

Let's face it - traditional air-cooled energy storage systems are like trying to cool a volcano with a desk fan. As grid-scale projects balloon in size and battery densities skyrocket, ...

Kehua's C& I liquid-cooled S3-EStore systems have been deployed at a Latvian industrial facility, ensuring uninterrupted ...

The first grammar of the Latvian language is a short "Manual on the Latvian language" (Latin: *Manuductio ad linguam lettonicam*) by Johans Georgs Rehehuzens [lv], published in 1644 in ...

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.
