What is a solar power inverter in the Philippines?

A solar power inverter in the Philippines not only converts the energy from the sun to usable energy but also serves as a communicating device that tells whether your solar PV system is experiencing problems.

How long does a solar power inverter last in the Philippines?

At Solaric, solar power inverters we've installed throughout the country resulted in drastic monthly electric bill drops, with homeowners noticing up to 50% reduction in their bills. If you purchase a solar power inverter in the Philippines, you can expect to recover from your investment within 6 to 7 years of use.

Why is the Philippines solar inverter market growing?

As per 6Wresearch, the Philippines solar inverter market has been attaining growth in recent years, with the rising adoption of solar energy as an alternative source of electricity. This growth of the market can be attributed to the contribution of key players who have been stimulating innovation and technological advancements in solar inverters.

Does Solaric sell SolarEdge inverters in the Philippines?

Solaric is an authorized distributor of SolarEdge inverters in the Philippines. We also help our clients carry out installation, site planning, and commissioning. We offer a full suite of SolarEdge inverters (single phase and 3 phase) that operate in the following grid types: regular 230V Single (split) phase, 400V Wye, and 230V Delta.

We bring SMA, Sofarsolar, and AEC inverters to the local Philippine market and assist with inverter commissioning, all at reasonable prices. Anodized aluminum rails designed to hold ...

12kW LuxPower 12kW Hybrid Inverter Single Phase SRP: PHP99,000.00 Installer Price: PHP96,000.00
