Where are LONGi Solar panels made?

With more than 60,000 employees in over 30 countries, and manufacturing plants in China, Malaysia, Vietnam, LONGi is a giant of research and production. This is further evidenced by its prominent position on our pages tracking the most efficient and most powerful solar panels.

Who is the best solar panel manufacturer?

The top global solar panel manufacturers, based on how many they ship, include JinkoSolar, JA Solar, Trina Solar, and LONGi. However, the best manufacturer for your solar project will depend more on whether their products suit your budget, needs, and lifestyle.

Are made-in-America solar panels made in USA?

\*Some Made-in-America brands produce small quantities of solar panels through OEMs in the United States, and that list can be found in the tabs above. It would be unrealistic to allot the OEM's full gigawatt quantity to each brand, so capacity estimates are not provided.

Where are solar panels made?

The Shanghai-based company has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees - of whom 1,500 work in the firm's eight research and development centres. China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems.
