In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has successfully closed a loan to finance a significant 60MW hybrid ...

France-based independent power producer (IPP) Qair Energy will deploy 60MWac of solar-plus-storage projects on the island nation of Mauritius after it won a state tender.

Mauritius isn't just stacking batteries like Lego bricks. Their new energy storage base combines three cutting-edge solutions: Remember those old Nissan Leaf batteries?

With three major overseas bases, as of the end of 2024, the cumulative delivery and grid connection of energy storage systems have exceeded 4.5 GWh, and the reserve ...

With three major overseas bases, as of the end of 2024, the cumulative delivery and grid connection of energy storage systems have ...

Renewable energy developer Qair has secured financing from SBM Bank (Mauritius) Ltd for its Stor"Sun I and II hybrid solar-plus-storage projects. These two projects ...

The simulations of key scenarios demonstrate that a 100 % RE system for Mauritius is technically feasible within reasonable costs. Solar photovoltaic (PV) and battery energy ...

With the advent of the BESS, indicated the Minister, a greater capacity of green energy will be stored and integrated into the national ...

Qair has announced the closing of a new loan to support the implementation of a hybrid solar photovoltaic and battery energy storage ...

French renewable energy producer, Qair, has signed four PPAs with the Central Electricity Board (CEB) of Mauritius for the development of solar PV energy facilities and battery storage ...

The government of Mauritius has welcomed the commissioning of a 20MW battery storage project which will provide frequency regulation to the East African island nation's grid.

With the advent of the BESS, indicated the Minister, a greater capacity of green energy will be stored and integrated into the national grid to meet growing demand at peak ...
