Discover the 48V 100Ah LiFePO4 battery pack for telecom base stations: safe, long-lasting, and eco-friendly. Optimize reliability with our design guide.

How to convert a stationary base station provided by Vence Corp into a mobile base station. Your conversion may look different depending on the type of trailer you use with your conversion.

Get a LiFePO4 battery for the base station to keep that up and running for a while. Or put solar on it and let it self charge to keep it up and running longer.

The MBLCOVR is a radio cover enclosure that mounts to the Powerwerx SS-30DV power supply when using an AT-D578UV or DB-750X radio in a base station configuration. This kit includes ...

Base Station Adapter Kit. Makes a gain, ground plane antenna when used with Larsen Models PO150, NMO150 or NMO450. Complete with mounting hardware. No coax or connector supplied.

Think of a base station's energy storage system as a three-layer cake: 1. The Energy Sponge (Storage Devices) 2. The Shape-Shifter (Power Conversion System) This ...

You can connect to the radio to a battery, then use a battery charger or solar panel (during the day of course) to charge it back up. This allows for use even when the power is out.

To ensure your battery powers your base station for your entire workday, factor in both your daily operational hours and your transmitter's power output when determining the necessary ...

The MBLCOVR is a radio cover enclosure that mounts perfectly to the SS-30DV power supply when using an AT-D578UV or DB-750X radio in a base station configuration.
