-----

Solis has completed a high-performance 50kW solar-plus-storage installation in Myanmar, showcasing how advanced hybrid ...

Among these projects, four are under construction in the Union Territory of Nay Pyi Taw, three in Mandalay Region, one in Bago Region, and one in Shan State, collectively ...

CDS cooperated with the Myanmar government on a 33kV off-grid photovoltaic energy storage project and successfully completed ...

In this Q& A, Min Chan Win, Managing Director for Smart Power Myanmar, discusses the impact of the project, the value of solar ...

The military-led government in Myanmar has launched a solar power initiative to tackle the country's severe energy crisis. This effort comes amid persistent power shortages ...

In this Q& A, Min Chan Win, Managing Director for Smart Power Myanmar, discusses the impact of the project, the value of solar energy in mitigating climate change and ...

Myanmar saw the completion of a 50 kW hybrid solar project by Solis with Longlast batteries, boosting commercial backup and energy resilience.

CDS cooperated with the Myanmar government on a 33kV off-grid photovoltaic energy storage project and successfully completed the first phase.

Solar tech leader Solis is making waves in Southeast Asia with its new energy solution -- an off-grid Battery Energy Storage System (BESS) in Myanmar.

Solis has completed a high-performance 50kW solar-plus-storage installation in Myanmar, showcasing how advanced hybrid inverter technology can unlock energy ...

120+ expert speakers will cover the big ideas, market disruptors, new industry trends and innovative technologies in large scale solar, smart grid, rural electrification, rooftop solar, ...

A total of 11 solar power plant projects are currently under construction and development across Myanmar, with an installed capacity of 1,026 megawatts, according to the Electricity and ...
