What is Eco Wave Power's Porto project?

The Porto project, Eco Wave Power's first MW-scale wave energy venture in Portugal, expected to be finalised during 2026, aims to harness ocean wave energy to generate sustainable electricity.

Can storage replace thermal generation in Portugal?

The pursuit of economic viability by storage facility owners will inherently lead to charging during low-cost hours and discharging during hours that are more economically attractive. Storage can replace thermal generation in constraint markets, easing the grid and supporting Portugal's 2040 phase-out target.

Which countries have a new energy storage incentive program?

Spain recently launched a EUR700 million energy storage incentive program, while Portugal announced an additional EUR400 million investment last week aimed at boosting grid stability and BESS deployment.

Can BNZ invest in Portugal?

A clear example comes from BNZ, a Spanish independent power producer backed by global investment capital, which has increased its planned investment in Portugal to as much as EUR600 million.

Veolia has secured a 270MEUR contract to manage the Waste-to-Energy Plant in Porto, Portugal, for an additional 15 years. This facility, operated by Veolia for 25 years, will ...

The future of Portugal's power grid lies not only in generating more clean energy but in managing it intelligently. Storage is both the brain and the muscle of this new grid.

Eco Wave Power Global AB has reached a major milestone in its first Portuguese project by paying half of the grid connection fee for its planned 1MW wave energy power ...

Nestled in the rugged hills of northern Portugal, the Porto Novo Pumped Storage Power Station stands as a marvel of modern energy engineering. Located near the Douro ...

VG CoLAB develops innovative energy storage technologies through functional prototypes, focusing on

battery cell scale-up, battery modules, and power electronics.

Galp has kicked off construction on five new battery energy storage system (BESS) projects in Spain and Portugal, marking a major step in its clean energy strategy. According to ...

The renewable energy landscape in Portugal is moving into a new phase, marked by stronger commitments from international investors ...

Portugal's battery storage boom steadies prices, slashes blackouts and opens tech roles. Discover how new policies could reshape ...

The renewable energy landscape in Portugal is moving into a new phase, marked by stronger commitments from international investors and the integration of storage ...

VG CoLAB develops innovative energy storage technologies through functional prototypes, focusing on battery cell scale-up, battery modules, ...

Portugal's battery storage boom steadies prices, slashes blackouts and opens tech roles. Discover how new policies could reshape your power bill.

Eco Wave Power Global AB has reached a major milestone in its first Portuguese project by paying half of the grid connection fee for its ...
