The integration of the battery energy storage system is expected to be completed and the facility commissioned in the second half of 2025, Fortis Energy revealed.

The US-based Pomega Energy Storage Technologies, specialising in lithium iron phosphate battery production, will install a 62-megawatt (MW)/104-megawatt-hour (MWh) battery energy ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind ...

In North Macedonia, the focus on household energy storage using lithium batteries is growing due to the country's goal of achieving 42% renewable energy by 2030.

The proposed project will combine wind, solar, battery energy storage and green hydrogen to help local industry decarbonise. It includes an option to expand the connection to 1,200MW.

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

The integration of the battery energy storage system is expected to be completed and the facility commissioned in the second ...

In this project, Pomega's lithium battery cells, battery management system, and advanced energy storage solutions will be utilized. This will allow solar energy to be efficiently used not only ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage.

State-led solar and wind projects, along with investments in grid ...

Discover how lithium battery energy storage systems are revolutionizing North Macedonia's renewable energy landscape - and why this matters for global sustainability goals.

We specialize in advanced photovoltaic energy storage solutions, providing high-efficiency battery cabinets designed for reliable, sustainable, and clean energy.

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy ...
