How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Scatec ASA, formerly Scatec Solar ASA is a Norwegian company which specializes in renewable energy systems. The company was founded by Dr. Alf Bjorseth in 2007.

Scatec ASA, formerly Scatec Solar ASA is a Norwegian company which specializes in renewable energy systems. The company was founded by Dr. Alf Bjorseth in 2007.
