---

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

Our Kits are custom made based on 3D Architect drawings, GPS data positioning, Grid requirements (Grid-tied or Off-Grid) and Operating Voltage. By supplying the info and selecting ...

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Perfect for off-grid electrification, temporary engineering power, and backup energy needs--combining portability, efficiency, and reliability in one solution.

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of ...

Our Kits are custom made based on 3D Architect drawings, GPS data positioning, Grid requirements (Grid-tied or Off-Grid) and Operating ...

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop your container.

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini ...

Discover the transformative potential of solar panels on shipping containers. Explore custom kits, modular configurations, and innovative applications.
