Workers check battery storage pods at a lithium-ion battery storage ...

Ottawa city council overturned a unanimous rejection of a municipal support resolution (MSR) for a controversial battery energy storage system (BESS) in the South March area.

On May 9, 2024, the IESO announced that ten proposed BESS projects were selected, totaling 1,784 megawatts (MW) of energy storage, including two to be located in rural ...

In cooperation with the start-up Africa GreenTec, TESVOLT is supplying lithium storage systems for 50 solar containers with a total capacity of 3 megawatt hours (MWh), enabling a reliable ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Proponents say the massive battery will store wind and solar-generated electricity. Opponents say the project doesn't belong on farmland.

The two BESS projects represent a potential investment of approximately \$1 billion in clean energy technology in the Ottawa-area, ...

Explore battery storage solutions with Ottawa Solar Power. Achieve energy independence and reliable backup for your home or business.

Workers check battery storage pods at a lithium-ion battery storage energy facility in Arizona last year. Ottawa is looking at regulatory changes around these types of facilities.
