The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

It combines solar power generation, energy storage, and water pump systems to provide a self-sufficient water supply solution for irrigation and lifting water from rivers, lakes, or deep wells.

This study explores the design and adaptation of a shipping container into a portable irrigation control station for agricultural operations. The project leverages the ...

We offer top-tier battery backup solutions compatible with major brands like SolarEdge, Enphase, SMA, and Fronius. The Sol-Ark L3 HVR-60KWH-60K is an outdoor energy storage solution ...

Solar shipping container powers irrigation and tools in off-grid farms. Ideal for remote agriculture needing clean, mobile energy.

The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing ...

This large-capacity energy storage container is engineered for robust C& I ESS (Commercial and Industrial Energy Storage System) applications, providing reliable backup power and ...

a mounting structure for PV panels, fixed or equipped with a solar tracking system to maximize the solar energy yield, a pump controller, a surface or submersible water pump (usually ...
