---

LEC, in cooperation with a partner, is constructing a battery energy storage system (BESS) with a total capacity of 8.4 MW / 16.8 MWh at the TEC-1 site in Riga.

energy storage facility. Hoymiles, as a key technology supplier, played a pivotal role in the project. Managed by Utilitas, Latvia's largest wind energy producer, this project combines wind ...

Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage, with significant investments ...

Modern BMS solutions in Riga's installations achieve 99.97% cell monitoring accuracy, extending battery lifecycles beyond 8,000 cycles. That's like charging your phone three times daily for ...

Backed by BlackRock's Diversified Infrastructure business, Jupiter Power has a strategic and established portfolio of utility-scale energy storage projects operating or in construction in the ...

The delivery includes inverters and battery control equipment for a battery energy storage system (BESS), one of the most powerful in the European Union. The system, with a ...

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and ...

Latvia's Energy Strategy 2050 outlines major changes in renewable energy production and storage, with significant investments planned in wind, solar, biomass, and ...

Latvia's transmission system operator, JSC "Augstsprieguma tīkls" (AST), has received its first shipment from Italy. Rolls-Royce Solutions GmbH has delivered inverters and ...

Summary: The Riga battery energy storage project represents a critical step in advancing renewable energy integration and grid stability in the Baltic region. This article explores the ...

The delivery includes inverters and battery control equipment for a battery energy storage system (BESS), one of the most powerful in ...

Looking to 2030, Riga plans to deploy liquid air storage - essentially bottling winter cold for summer AC use. It's like making snowballs in July, but for real energy savings.
