Ala Moana Center, Hawaii's largest shopping mall, installed a 2.8 MW solar system on the previously unused rooftop and parking canopy structures that cover over 4,500 spaces. The ...

In the video below, I explain the rooftop solar potential of big box stores and warehouses. Today, there are hundreds of thousands of ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

We design and build solar power plants for shopping malls, as well as provide services for their subsequent maintenance. Avenston's commercial solar power plant is a reliable and profitable ...

Shopping malls and similar venues present attractive, big-time opportunities as potential sites for grid-connected solar power, energy storage and intelligent, highly energy-efficient facilities ...

Ala Moana Center, Hawaii's largest shopping mall, installed a 2.8 MW solar system on the previously unused rooftop and parking canopy structures ...

Solar Growth Among Big-Box Retailers and Shopping Mall Owners
Economic, Social and Environmental Returns
Solar on Every Shopping Mall in America?"I'd love to see solar on the roof of every shopping mall in America, but it can't stop there. From shopping malls to office buildings to single-family and multi-family homes, if we're going to have any chance at mitigating the harmful impacts of climate change, we're going to need to see a significant acceleration in the deployment of renewable en...See more on solarmagazine
