UGT Renewables is working with Serbia's EPS to provide a series of self-balanced utility-scale solar projects, including battery storage, to every corner of Serbia.

Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS) project in Serbia. The company plans to begin construction at the ...

These systems can provide a stable and consistent power supply by combining wind and solar energy with storage capabilities, reducing dependency on traditional fossil fuel ...

Plans for 1 GW of new solar in Serbia are set to go ahead after the signing of an implementation agreement.

The city's new 140MW photovoltaic + storage project isn't just another solar farm - it's Serbia's first large-scale marriage of solar generation with lithium-ion battery storage.

Belgrade's photovoltaic energy storage project bidding has become a focal point for global renewable energy developers. With Serbia aiming to generate 40% of its electricity from ...

In Batajnica, near the highway to Novi Sad, an unusual solar power plant with a capacity of 10 kilowatts has recently been put into operation. This plant belongs to the first ...

As we approach Q4 2025, watch for Belgrade's first virtual power plant aggregating 5,000 residential storage units--a game-changer for grid flexibility during winter peaks.

CMS Belgrade has advised UGT Renewables, a US-based solar energy and storage developer, on a strategic partnership for the development and construction of solar ...

Enter mobile energy storage - the Swiss Army knife of urban power solutions. Unlike traditional "fixed" energy storage, these portable power banks for cities can be ...
