Where is solar glass manufactured?

The company spotted the opportunity in this segment quite early and commissioned the solar glass manufacturing facility at Bharuch in Indian State of Gujarat in January 2010. Over the last 5 years, the solar PV installations and module production across the world have grown exponentially.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

What customization options does solar glass offer?

Customization & Versatility: Our solar glass offers extensive customization options, including various colors, shapes, sizes (up to 4000mm x 2000mm), and transparencies. Integrate cutting-edge solar technology seamlessly into any architectural design.

Solar Tile Roof manufactures and distributes the world's most energy-efficient and aesthetically pleasing solar-integrated ...
