Highjoule's HJ-SG Series Solar Container was built for one purpose: keeping base stations running where there's no grid power. It integrates solar PV, battery storage, backup diesel, ...

With projects ranging from underground thermal vaults to cutting-edge battery systems, Finland's approach to energy storage is about as diverse as its famous midnight sun phases.

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Merus Power and Taaleri Energia's 30MW/36MWh project near Tampere isn't just another battery farm. Wait, no - it's actually Finland's first large-scale system providing primary frequency ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Elisa has received a permit from Fingrid, the Finnish national electricity transmission system operator, to use the backup batteries in its base ...

Discover how Tampere, Finland's third-largest city, is leveraging photovoltaic systems and advanced energy storage to combat climate challenges. This article explores practical ...

Elisa has received a permit from Fingrid, the Finnish national electricity transmission system operator, to use the backup batteries in its base stations in the grid balancing market in ...

A 2023 partnership between Tampere-based suppliers and a Norwegian solar farm achieved a 20% increase in

Solar container battery magnetic pump for Tampere Base Station Finland
