---

Vietnam's energy storage race is like a game of Tetris: fast-paced, occasionally chaotic, but wildly rewarding if you slot the pieces right. With projects like GoodWe's Haiphong plant and VinES's ...

The Vietnamese government has approved two new solar power plants and two battery energy storage systems (BESS) in the Nam Dinh and Thai Binh provinces. These ...

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing ...

In the PDMP8, Vietnam's government planned to develop two electricity storage types: pump hydro and batteries. BESS will be applied to the power system when the price is ...

Vietnam is seeking greater energy efficiency, improved transmission, and alternative fuels for its energy storage sector.

Vietnam's Ministry of Industry and Trade (MOIT) has announced a new round of feed-in tariffs (FIT) for solar power, introducing location-based pricing and, for the first time, ...

Vietnam can leverage domestic solar manufacturing to meet domestic demand, implement direct power purchase agreements (DPPAs) enabling private renewable supplies, ...

Centralized photovoltaic (PV) projects paired with energy storage systems (like battery energy storage, or BESS) are at the heart of this transformation, driven by ambitious ...

Vietnam can leverage domestic solar manufacturing to meet domestic demand, implement direct power purchase agreements ...

The Vietnamese government has approved two new solar power plants and two battery energy storage systems (BESS) in the Nam ...

A strategic analysis of Vietnam's energy future: why Battery Energy Storage Systems (BESS) will decide enterprise competitiveness by 2026, and how SolarBK is shaping ...

From individual homes in Da Nang to factories in Binh Duong, GSL ENERGY delivers tailored solar batteries for home and battery ...
