Their portfolio of partner companies is nothing short of astonishing. It spans from the ocean, with the research NGO Rost Marine Research Center, all the way to outer space, supporting ...

Due to its northern latitude, solar irradiation in Iceland is low in winter but highly concentrated during summer months, enabling effective seasonal generation. Despite long winters, the 24 ...

In partnership with Space Solar, Reykjavik Energy, and Transition Labs, Iceland aims to build a solar power plant in orbit, projected to generate up to 30 megawatts of ...

By 2030, the project is targeting an initial capacity of 30 MW, enough to power between 1,500 and 3,000 homes in Iceland. As the technology matures, future installations are ...

Iceland has relatively low insolation, due to the high latitude, thus limited solar power potential. The total yearly insolation is about 20% less than Paris, and half as much as Madrid, with very ...

UK startup Space Solar has signed an agreement with Reykjavik Energy that could see Iceland become the first country to receive power beamed from a space-based solar ...

Iceland is accelerating its sustainable energy transition by closing its last coal plant. Discover how this move impacts energy grid ...

Space Solar will partner with Icelandic climate solutions initiative Transition Labs to send power from its debut facility to Reykjavik ...

Iceland is accelerating its sustainable energy transition by closing its last coal plant. Discover how this move impacts energy grid stability and its 2040 carbon neutral goal.

(Bloomberg) -- Iceland's new government plans to allow energy companies to begin three new power plant projects this year, while it is still mulling the terms for foreign ...

Space Solar plans to provide residents of Iceland with solar energy from space. The space power plant is scheduled to be launched in 2030.

Space Solar will partner with Icelandic climate solutions initiative Transition Labs to send power from its debut facility to Reykjavik Energy -- adding solar to the island nation's ...
