Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What is included in a container generator?

The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, control panel and accessories such as lighting and fire extinguishers. Apart from the preparations for the load connection no further construction work at site is necessary.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2,3,4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

How many generators can be used in a container genset?

The container gensets can be powered by engines of following manufacturers: The container built-in control panels are based on the intended use, e.g. manual/stand alone operation, emergency/standby or parallel operation. In parallel mode (GenSet-GenSet), up to 32 generators can be used as 'Power-Plant'.

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

For extra space and protection for your backup power system, choose a containerised generator. Our weatherproof containerised units can be customised with sound and thermal insulation to ...

Our Containerised generators can be designed and tailored to suit your specific requirements, such as combining a UPS (Uninterruptable Power Supply) and Diesel generator into one ...

Green Power Systems offers the possibility of installing generators inside CONTAINERS of 10" / 20" (BOX

and HC) / 30" / 40" (BOX and HC) or SHELTERS according to the customer's ...

They are built to house and soundproof gen-sets and other industrial equipment, such as motor pumps, compressors, etc. They have building features similar to shipping containers, making ...

Housed within standard shipping containers, these generators offer a seamless integration of the generator set and its associated equipment, providing a robust solution that combines ...

Lindenberg specializes in the production of soundproof enclosures, containers, and machinery housings. The structures are designed for the installation of power generators, pump units, ...

For extra space and protection for your backup power system, choose a containerised generator. Our weatherproof containerised units can be ...

Green Power Systems offers the possibility of installing generators inside CONTAINERS of 10" / 20" (BOX and HC) / 30" / 40" (BOX and HC) or ...

MITTRONIK Engineering is specialised in customized solutions. The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, ...

Buy containerised generators from Generators for Export. We provide domestic & international shipping of used containerised diesel generators.

They are built to house and soundproof gen-sets and other industrial equipment, such as motor pumps, compressors, etc. They have building ...
