What is the new commercial and industrial solar panel discount?

The new commercial and industrial solar panel (PV) discount will help businesses save on energy costs and electrify on-site equipment. All Victorian businesses and non-residential sites, such as community buildings, schools and hospitals, are eligible to apply for discounts to install a solar PV system.

Are Victorians buying bigger solar systems?

If the line is rising in the bottom graph, it tends to indicate Victorians are buying increasingly bigger systems—use the dropdown menu towards the top of the page to zero in on specific system size price trends. To see detailed installation figures for any town or suburb in Victoria, check out our solar in your location tool.

Why did Victorian solar prices drop in 2019?

The averages are generated from pricing reported by Victorian reviewers on SolarQuotes and are based on system purchase date. Note that the significant price drop in 2019 was due to the Victorian solar rebate coming into play, which reduced system installation costs considerably.

What is a PV energy estimate?

Estimates the energy production and cost of energy of grid-connected photovoltaic (PV) energy systems throughout the world. It allows homeowners, small building owners, installers and manufacturers to easily develop estimates of the performance of potential PV installations
