The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

As commercial properties such as shopping malls continue to expand their green initiatives, investing in solar panel systems translates into lower operational costs and a reduced carbon ...

Mobil-Grid(R) 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which integrates a plug and play pre-wired deployable and redeployable solar plant

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

Our team of experts designs, installs and optimizes photovoltaic systems that make the most of the sun's energy to meet the energy needs of large ...

Shopping malls and other big-box retail facilities are the perfect places to install a solar system. Most shopping centers have large, flat, empty roofs that can easily accommodate solar panels.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

A photovoltaic energy storage system quietly humming on the rooftop. This isn't sci-fi; it's today's reality for smart retail spaces adopting solar+storage solutions.

We design and build solar power plants for shopping malls, as well as provide services for their subsequent
