What are the different types of power plugs & outlets in Barbados?

In Barbados, there are two types of power plugs and outlets: Type A and Type B. Both types are used in airports, hotels, restaurants, etc., but they differ in terms of shape. Type A: Type A plugs have two flat prongs on either side of the plug.

Does Barbados have a power supply?

The standard power supply in Barbados has 110 volt /50 Hz and 2-pin sockets (system and sockets are the same as in the U.S.A.). Some individuals and hotels also have additional power supply and outlets for the 220-240 volts System. If you are not from the United States of America you will probably need a socket adapter for U.S. outlets.

What voltage is used in Barbados?

In Barbados, power plugs and sockets (outlets) of type A and type B are used. The standard voltage is 115 V at a frequency of 50 Hz. Barbados is a beautiful Caribbean island nation known for its pristine beaches, crystal-clear waters, and vibrant culture.

What type of plug does Barbados use?

Barbados uses two different plug types: A and B. Plug type A has two flat parallel pins, while plug type B has two flat parallel pins with a grounding pin. The majority of outlets in Barbados are type A, but some outlets may be type B. The standard voltage in Barbados is 115 volts and the frequency is 50 Hz.
