Can someone tell me what the correct bolt torque value is for the front pump, both the pump body halves and the mounting to a Dedenbear case, Thanks

Oh wow, I really, really, really hope that happens! I figured VMP would be hosting an IHRA national event with NHRA removing it from their schedule. Memphis I had really been ...

I've thought about trying a big radial on my car (32x14). The radials are a supposed to be a faster tire and you dead hook them. If you dead hook a bias slick you lose ET.

Is there any truth to this? If so, what's the best auto parts store stocked filter these days?

just got this for cheap. from what I've read its a gen 5 block, it is one peace rear main and it is a 4 bolt. From what I've read these should be roller motors, this one is not.

I see most people "settle" with the default layouts that comes with the Holley Pro Dash. In my opinion, I think the first default background is the best looking one.
